Class XI and XII

Central Board of Secondary Education

Part I - Foreword to syllabus in class XI and XII

The syllabus for classes XI and XII while following the communicative approach lays more stress on expansion of vocabulary, improved expression as also student projects. Grammar will be revised and teachers are expected to build on the foundation laid in previous years. More difficult exercises using the grammar structures already known, have to be practised in class with a clear emphasis on applied grammar.

By now the teacher should be able to use German as the sole medium of instruction in class. Students should be able to respond in German to verbal and visual stimuli and communicate on a wide range of everyday topics.

Speaking and writing skills now are on the forefront, though reading and listening skills have also not been neglected.

Reading should also be more thorough and detailed in nature. It is not enough to just skim a text and extract the salient points or extract specific information based on our need. It is now also important to read a text and understand the details.

In the aural skills department students should be able to follow texts that are lengthy and where the speaker speaks on a given topic from everyday life in a nuanced manner.

In the written portion students will at the end of class XII have to summarise a given passage in German in contrast to class X where the summary is to be written in English. Translation, in the traditional sense, has once again not been incorporated.

Students will get ample opportunity to speak and express themselves in class. Projects have also been included in almost every chapter.

Ideally an oral test should be a part of the assessment in both years. But due to systemic constraints this could not be done. The final exam in class XI will test reading and writing skills as well as grammar.

We aim that when a student leaves school at the end of XII he/she will be able to communicate in everyday situations and deal with problems he/she encounters in everyday life. More importantly the German learnt in school should be the base for a professional in any field to build on if he/she should be in a situation where they need to use their language skills professionally. They may in such a situation need to complement their knowledge with the subject specific vocabulary from their field.
Part II - Learning Objectives

The following learning objectives apply for classes XI and XII.

1. **Listening and responding**

Part IV
Assessment for Class XI

Assessment should be a combination of internal assessment, periodic tests and term exams. The format for the Board Examination should be followed in Class XI as well. The syllabus developed for class XI is interactive and communicative in nature. The tests should be a reflection of the same.

It is suggested that 20% weightage for internal assessment, 30% for periodical tests and 50% for the term exam should be given.

The suggested breakup for the term exam is as follows:

1. Summarizing a German passage from the text book in their own words in simple German  10 Marks
2. Comprehension (seen passage)  15 Marks
3. Comprehension (unseen passage)  10 Marks
4. Composition based on verbal stimulus such as, letter, formal e-mail, poster  10 Marks
5. Describe a statistic .............................................. 10 Marks
6. Applied Grammar .............................................. 40 Marks

Applied Grammar:
   a. Indirect questions in the form of subordinate clauses 10 Marks
   b. Adjective endings with indefinite articles 10 Marks
   c. Conjunctions(weil, wenn, als, deshalb, denn, bevor, bis, seit, deswegen, ob) 10 Marks
   d. Indefinite Pronouns (einer, keiner, jeder, alle) 05 Marks
   e. Subjunctive (Konjunktiv II) 05 Marks

7. Value based Question (based on a text from the textbook) .............................................. 05 Marks

Remarks:
1. In class XI more weightage needs to be given to productive skills in German. Therefore the summary of a text is no longer in English.
2. In the listening and reading comprehension marks should not be deducted for grammatical and orthographical errors.
3. In the written part marks should not be deducted for minor orthographical errors.
4. Writing short texts could be a part of the periodical tests.
5. Internal assessment should be based on regularity, project work and class response.
