Ans 18: The basic step of creating a bandhani textile are as follows.

1. Preparation of fabric - fabric which has to be dyed soaked in water overnight and washed to remove the starch.
2. Tracing of design – The design lay out is marked on folded fabric with wooden blocks or colors like neel.
3. Tying of fabric – as per the design the folded fabric is raised with pointed nail over the finger, a cotton thread coated with wax is wrapped over the raised area.
4. Dying of fabric in the color- after tying the fabrics dyed in the color. After dyeing the fabric is washed and dried.
5. Opening the ties – the ties of the dyed fabric are kept tied till purchased by a consumer in order to differentiate between a bandhani textile and a printed imitation.

Q.19 (a) Name the different kinds of looms for weaving fabric in India?

(b) Mention the different motifs, dyes and techniques used in Kalamkari.

Ans 19:

- a) Various kinds of looms are used in different regions in India. Apart from simple pit looms, frame looms and complex jala looms, back strap looms are popular in north eastern states.
- b) Motifs in kalamkari - The prints from Masuli Patnam were characterized by intricate motifs & forms including the tree of life and stylized peacocks. Decorative borders were depicted in stylized natural forms with wooden blocks instead of pen. Mughal patterns were influenced by Mughal motifs of exotic fruits, flowers, birds and peacocks etc.
- Dyes in kalamkari – natural colors extracted from plants, roots, leaves and similar vegetables combined with minerals like iron and mordants like alum which helps in fixing the color on the fabric.
- Technique of kalamkari – The first step is to prepare grey cloth by soaking the cotton fabric in water for an hour and washing so as to remove the starch which is followed by drying. Then fabric is treated with myrobolan solutions which gives the cloth a light yellow tone. The outline of the figures are drawn by ferrous acetate solution. The solution gives black color alum solution gives red color. Blue color is applied by mixing indigo solution in an alkaline solution of lime and fuller's earth.

Q.20 Distinguish between Kanikar and Amlikar Shawls.

Ans 20: Kanikar shawl – the world famous Kani shawl has given geographical indicator (GI status). It helps in prevention of shawl made in other regions of the world carrying the Kanikar shawl tag. The Kashmir govt. has set up laboratory to test the genuineness of Kani shawl. The GI tag will also help the Kani shawl to regain the right full place in domestic & global market.

Amlikar shawl – during the regime of Afghan governor Haji Das Khan heavy taxes were imposed on the shawl weaving industry that forced the artisans out of their profession. They were in miserable conditions and started shifting to nearby areas like Amritsar where attempts were made to establish a successful shawl industry but all in vain. This gave rise to

embroidered shawl known as amlikar where the tax was paid just for plain woven shawl. Which was later embellished with embroidery by the artisan.

Q.21 Distinguish between Shrikalahasti and Masulipatnam?

Ans 21:

Sri kala hasti ruled by hindu rulers gave patronage to the painters. Scenes from Ramayana and Mahabharata on large piece of fabrics were used as hangings and canopies in the temples. The forms are folks. Gods like Krishna, shiva, brahma and durga are depicted with rounded faces. Women are shown with heavy chins and man depicted with long moustaches. Color like blue, yellow, red & black are used.

Masuli patnam – it is under the Golconda province catered to the mughal tastes with its passion influence according to Islamic aesthetics. The prints from the region were characterized by intricate motifs and forms like the tree of life. Decorative borders were depicted in stylized natural forms with wooden blocks instead of pen. Some times pen is also combined to elaborate designs. These fabrics are used as furnishing, bedspreads, curtains etc. These fabrics were also in popular in west that they were banned in france and England as it was threat to their domestic printed fabric industries. They are also known by the name palampores.
