		Accommodation of text, sound, image into film
		Accommodation of film into television
		Internet as the meeting point of all the mass media
		apter II: Convergence and the New Possibilities of Communication
	Ear	lier models of communication
		Broadcasting
		Mass communication model of a few transmitting to a vast number of receivers
		Gigantic organization
		Huge technical infrastructure
		Large scale revenue
		The changed paradigm due to the Internet
		Empowering an individual to post data on the Internet
		Information, message in one medium triggering off activity in the others
		Many sources of the same information
		Distribution of the information between individuals on an unprecedented global scale
		Rapidity of opinion generation on a local, national and global scale
		The socio- political implications of the new information order
		The strengthening of democracy

UNIT-4: SELLING/MARKETING/EXHIBITING A PRODUCT THROUGH ADVERTISING

30 Periods

ΙH	ROUGH ADVERTISING
The	e Case Study Approach
Cha	apter I: Profile of a Product
	Product specifications
	Targeting buyers
Cha	apter II: The task of Advertising
	Promotion of product
	Drive sales
	Build a brand identity
	Increase the buzz
Cha	apter III: The Available Media
	Print-newspapers, magazines, brochures, fliers, posters
	OOH-billboards, kiosks, tradeshows events
	Broadcast advertising - Radio, TV, digital Internet + mobile
	'In film' promos
	Celebrity endorsements
	Cross promotions
	Merchandise
	Games (Mobile and computer)
	Covert advertising
Cha	apter IV: Forms of Advertising
	Product Advertising
	Institutional Advertising (Corporate)
	Social Service - PSA
	Advocacy Advertising
	Comparative Advertising
	Cooperative Advertising
	Direct Mail
	Point of Purchase Advertising
	Informational Advertising

UNIT-5: GRAPHIC DESIGN AND MULTIMEDIA APPLICATIONS

20 Periods

Chapter I: Introduction to multimedia

Chapter II: Text

Chapter III: Still in Age

Chapter IV: Video Application

Chapter V: Sound

UNIT-6: PRODUCTION SKILLS

40 Periods

Project - Non-Fiction: Students will conceive, write, direct and edit a non-fiction film project of 3-5 minutes duration.

Guidelines

In this, they will follow the film making process of going through the pre-production, production and post-production process. The idea will be submitted to the teacher first. It shall be discussed and approved. It is only after that, the student can undertake to do further research and writing of the script. The script shall be submitted along with the shooting schedule, the same will be approved by teacher and only after the clearance from the teacher will the shooting take place. Students will complete the project on video tape and submit it along as a video tape as well as in the DVD format with the docket containing all the paper work done by them.

the DVD format with the docket containing all the paper work done by them. Subjects of the films should be suitable for the audience of their own age group. Social issues like Gender issues, Environmental issues, Education, Health, Livelihood, Rights on disability, Access, Road Safety, documentaries on Historical monuments, Art and Craft can be chosen. Initial research is very important with regard to pre-production and production. Students must understand and read about media ethics and understand the sensitivity of the issue concerned. Students must take up issues which they closely relate to in their everyday lives and are able to work on within their academic concerns. □ Themes to illustrate facets of other arts could also be chosen. Issues relating to media could also be a domain. Students must understand their roots and cultural heritage which surrounds them. It is part of what they are. This consists of not just historical monuments; it surpasses subjects like rituals, traditional medicinal practices, folklore and anecdotes from their grandparents, about the city they live in, various performing arts and more. Portraits of personalities with respect to their contribution to life may also be chosen. People who have made a difference within their community, their role models, people they look up to, those who inspire them or have encouraged them, they could be their relative, teacher, a household help or anyone known to them. Basic Handycam video cameras and basic editing software like Adobe Premier or Windows Movie maker should suffice. Technical quality is important, but technological sophistication by itself will not carry much weight, as the purpose is to judge the overall programme making ability. The preparation is as important as the product and will carry half the percentage in the total assessment of the project. ☐ The time limit of 3-5 minutes is to be strictly observed. Anything drastically more or less in duration will negatively affect the assessment. These guidelines should be very clearly explained to the students and there should be no basic doubts about the approach in their minds.

UNIT-7: PORTFOLIO ASSESSMENT

40 Periods

PORTFOLIO ASSESSMENT AND APPRENTICESHIP

Special features of Assessment

The Portfolio will consist of a compilation of all written submissions over the duration of the course. It is the sum total of the creative work executed by the student over the year. The Portfolio will consist of all written submissions over the duration of the course. The assignments would include written project work and production output will be collected. The submission would

include both the original and improved versions of assigned tasks reflective of gradual improvement.

Ain	ns of the exercise of Portfolio are-
	To create a desire in the student to go beyond the text and classroom learning
	To inculcate in the student the spirit of research
	To offer the scope for imaginative thinking
	To develop the power of interpretation
	To imbibe the notions of subjectivity and objectivity
Ob:	jectives of the exercise of Portfolio are -
	The student begins to think independently and critically about the subject.
	The student learns to develop his/her own themes.
	The student learns to systematically gather facts and sift the data.
	The student learns to use the data in a coherent and logical manner.
	The student learns to follow one's imagination to create an original work.
	The student learns the difference between analyzing someone else's work and creating one's own.
	The student learns to develop distinct creative approaches to fiction and non-fiction.
	The student learns to conceive and execute ideas that are medium specific.

Assessment of the Portfolio: The basic guideline for assessment of the Portfolio is to judge the student's individual growth along the aims and objectives stated above. Both quality and quantity of the work done cumulatively should receive equal consideration.

The student learns to identify upon his/her own strengths and weaknesses.

10 marks have been allotted for the Portfolio.

Apprentice Program: All students who take this course will have to mandatorily take one week intensive training at an institution which has been approved by CBSE. The week long intensive training will also have a component of project work which will be assessed by the examiners of the institution.

Guidelines for teacher training preamble - The subject Mass Media Studies is new and a broad-spectrum one. Hence there are no specialized teachers available at the inception to teach the course. The teachers, who will have the initiative to undertake the responsibility of teaching, themselves would belong to various backgrounds. So the trainers are dealing with heterogeneous groups as far as the educational background of the members of the group are concerned. These are the factors that have been taken into account while planning the content and teaching strategy. These are not to be considered as limiting factors, but important details.

Content: The reader of the course would form the main reference around which the course would be structured. It will be more of participatory workshop than a lecture dominant programme.

Aims

To explain the basic concept and key areas of the curriculum
To demonstrate the use of available resources and to create the new ones
To demonstrate the various approaches such as case study, analysis, research, creation of a product from an abstract idea and more
product from an abstract idea and more

	To correlate the experience of various media as different dimensions of social life
	To bring awareness of the fact that mass media offers scope to a variety of talents and skills
Ob	jectives
Aft	er the successful completion of the course the teachers should be able to:
	Understand the ideas behind each unit and their interrelationship
	Locate the teaching resources within the familiar areas of information
	Guide the students to creatively execute their ideas
	Make the students realize the different realities of the media
	Develop a comprehensive perspective on mass media
	Induce the students to think positively about choosing a career in mass media
Infi	rastructure Requirements in Schools
Cor	nputers - an ideal ratio of 1 computer for every 5 students, with the following specifications:
	PCs or Macs (latest those purchased in 2014) with a minimum of 2GB RAM and 1TB HDD with core -2 processors i5/i7 processors (in the case of iMacs).
	Appropriate editing/sound softwares. These will be freely available softwares, which schools can select. These should be available at no cost or a minimal cost, if at all.
	The computers, ideally should be on a UPS or a backup power so as to not damage them in case of power failures.
	Handycams/Hand-held video cameras with an ideal ration of 1:10 (1 camera for every 10 students).
	A screening room equipped with a television set or projector and speakers for playback of video or screening images through a computer.

Qualification for Faculty: An M.A in Mass Communication preferably with B.Ed.
