Q. 5	Answer any 5 out of the given 6 questions	·	(1	x 5 = 5 m	arks)
i.	Each sachet of Gutka containsharmful chemicals.	CBSE	4	87	1
	Answer: 4000				
ii.	III- effect of alcoholism is	CBSE	4	87	1
	Answer: Both a&b				
iii.	Team spirit can be lost if	CBSE	4	88	1

	Answer: Team members are not flexible				
iv.	To create a positive impression, you must ensure that	CBSE	4	81	1
	Answer: All above				
V	Which type of makeup should be worn by receptionist?	CBSE	4	81	1
	Answer: Natural Makeup				
vi	Accurate message taking is very simple in salon and should include	CBSE	4	85	1
	Answer: Name of the person the message is for.				

# SECTION B: SUBJECTIVE TYPE QUESTIONS PART A- SHORT ANSWER TYPE QUESTION

Q. No.	QUESTIONS	SOURCE MATERIAL (NCERT/PSSCIVE/ CBSE Study Material)	NO.	PAGE NO.	MARKS
	any 3 out of the given 5 questions on Employabilit	y Skills (2 x 3 = 6 i	marks)		
Answer 6	each question in 20 – 30 words.				
Q. 6	Define communication.	CBSE	1	10	2
	Answer:				
	Communication is the act of conveying				
	meanings from one entity or group to another				
	through the use of mutually understood				
	science, symbols and semiotic rules.				
Q.7	Define stress.	CBSE	2	178	2
	Answer:				
	Stress refers to a "physical, mental, or				
	emotional strain or tension". Small amounts of				
	stress have a positive effect and they help us				
	stretch ourselves to new level. High levels of				
	stress over prolonged periods need to be				
	managed. A Stress well managed can help one				
	view events and situations as challenges and				
	contributes in the growth of individual.				
	Unmanaged stress leads to anxiety and sorrow				
	resulting in ill status of mental and physical				
	health				
Q. 8	What is word processor?	CBSE	3	80	2
	Answer:				
	A word processor is a software that helps you				
	type and work with text on a computer. You				
	can create a document like, letter, memo,				

	newsletter and save it in word processor.				
Q. 9	What makes entrepreneur successful?	CBSE	4		2
	Answer:				
	1) Confidence				
	2) Independence				
	3) Perseverance				
	4) Open mindedness				
Q. 10	Name the importance of green economy.	CBSE	5	191	2
	Answer:				
	IMPORTANCE OF GREEN ECONOMY				
	1. Green economy promotes sustainable				
	development				
	2. Green economy promotes effective resource				
	utilization.				

### PART B- SHORT ANSWER TYPE SUBJECT SPECIFIC QUESTION

the body? Answer: Langerhans cells are immune cells found in the epidermis and are responsible for helping the body learn and later recognize new 'allergens' (material foreign to the body).	Q. No.	QUESTIONS	SOURCE MATERIAL (NCERT/PSSCIVE/ CBSE Study Material)	UNIT/ CHAP. NO.	PAGE NO.	MARKS
the body? Answer: Langerhans cells are immune cells found in the epidermis and are responsible for helping the body learn and later recognize new 'allergens' (material foreign to the body).  Q. 12 Write down the advantages and disadvantages of bleaching. Answer: Advantages of Bleach: The following are the advantages of bleaching: a) Instant /quick result within 10 minutes. b) Lightens skin tone. c) Helps to remove sun tan.	Answer	any 4 out of the given 6 questions in 20 – 30 words	each (2 x 4 = 8 ma	arks)		
body learn and later recognize new 'allergens' (material foreign to the body).  Q. 12 Write down the advantages and disadvantages of bleaching.  Answer:  Advantages of Bleach: The following are the advantages of bleaching: a) Instant /quick result within 10 minutes. b) Lightens skin tone. c) Helps to remove sun tan.	Q11	the body? of bleaching.  Answer:  Advantages of Bleach: The following are the advantages of bleaching: a) Instant /quick result within 10 minutes. b) Lightens skin tone. c) Helps to remove sun tan.		body learn and later recognize new 'allergens' (material foreign to the body).				
Advantages of Bleach: The following are the advantages of bleaching: a) Instant /quick result within 10 minutes. b) Lightens skin tone. c) Helps to remove sun tan.	Q. 12		CBSE	2	47	2
The following are the advantages of bleaching:  a) Instant /quick result within 10 minutes.  b) Lightens skin tone.  c) Helps to remove sun tan.		Answer:				
a) Prolonged use of chemicals may have harmful effects on skin and hair. b) Require post bleach care.  Dryness, Texture, Wrinkles Appearance		The following are the advantages of bleaching:  a) Instant /quick result within 10 minutes. b) Lightens skin tone. c) Helps to remove sun tan. Disadvantages of Bleach: a) Prolonged use of chemicals may have harmful effects on skin and hair. b) Require post bleach care.				

Q. 13	Differentiate between anagen and catagen phases of hair growth cycle.  Answer: Anagen During the anagen phase, the hair follicle is active and the hair is growing continuously.  Catagen During this cycle, hair follicle undergoes a period of change and do not grow. This phase lasts for about 2 weeks	CBSE	2	34	2
Q. 14	How to categorize three groups of eye shadow and eyeliner? Answer: Highlighters: Cream, white, beige colors (very light and neutral) Medium colors: Like blue, green, brown, grey, pink, etc. Eyeliner colors: Black, dark brown, grey. Matte colors: Creates a good illusion. Glitter/shiny colors: Let the illusion disappear.	CBSE	3	68	2
Q. 15	Describe the correct method of selecting foundation shade.  Answer:  The shade of foundation should be selected by trying on the inside of the wrist or on the jawline. Foundation is to make the skin even and cover small imperfections and not to make a person fairer. Take 3 colors that you think will suit you and apply it onto your jawline or inside of the wrist. The one that disappears into your skin is the correct color.	CBSE	3	65	2
Q16	How body language plays an important factor during telephonic communication?  Answer:  Even when the phone is answered with Hello? You can tell if that person is happy, bored, or hassled. Smiling when you announce yourself can help to make you sound pleased to receive the call.  • Smile even though it cannot be seen, it will be heard.  • Focus your eyes on something that will help you concentrate on your communication.  Listen for body language eg. pauses and breathing patterns.	CBSE	4	83	2

#### PART C- DESCRIPTIVE/ LONG ANSWER TYPE SUBJECT SPECIFIC QUESTION

Q. No.	QUESTIONS	SOURCE MATERIAL (NCERT/PSSCIVE/ CBSE Study Material)	UNIT/ CHAP. NO.	PAGE NO.	MARKS
Answer	any 3 out of the given 5 questions in 50-80 words		(4 x 3 =	12 mark	s)
Q17	Explain the characteristics of oily and Sensitive skin type.  Answer: Oily skin  a) This type of skin is thicker and coarser than other types of skins. b) It has a tendency develop open pores, pimples, blackheads, papules and pustules. c) Oily skin can be found around the nose and chin. d) Oily skin is the result of clogging of sebaceous glands causing sluggish circulation  Sensitive skin a) Very sensitive to cold, heat and wind. The skin becomes allergic and sensitive because of broken capillaries and results in	CBSE	1	21	4
Q. 18	rashes or irritation through strong preparation.  Describe the guidelines to be followed while preparing the work area for waxing.  Answer: Working area preparation plays a very vital role in any spa treatment. A beauty therapist is required to set the treatment area as per standards of the spa. This will help in providing effective service. Any waste resulting from the waxing should be considered as contaminated waste.  Certain guidelines should be followed to dispose of waste. The following guidelines may help to dispose of wastes:  • Used strips should be put into small lined bins  • Use industrial gloves to dispose of clinical wastes.  The following guidelines should be adhered to prepare the working area:	CBSE	2	36	4

	• Cover the couch properly to avoid any spillage.				
Q. 19	What after care advice should be given to client after waxing.  Answer:  • Keep the skin clean for 24 hours after the treatment.  • Wash hands and then apply any soothing or antiseptic cream and avoid touching the area with unclean hands.  • Avoid using any fragranced deodorants, sprays, or powders.  • Avoid taking hot or bubble shower as it can cause irritation.  • Avoid going to the gym or any kind of workouts or sports for 24 hours at would increase perspiration in the area.	CBSE	2	40	4
	Avoid wearing dirty clothes. Wear cotton				
	clothes in order to avoid irritation				
020	Endet the establishment of the fall and	CDCE		60	4
Q20.	Explain the guidelines that should be followed by beauty therapist while preparing the work area.  Answer: General guidelines for beauty therapist:  • Keep the work area clean, tidy and well organized.  • Use only sterilized tool and equipment.  • Wash hands thoroughly before and after the treatment.  • Never apply makeup over infected area.  • Dispose of waste safely and hygienically in an appropriate container.  Elaborate any three bad habits from which	CBSE	3	87	4
2,21	any beauty therapist must stay away.  Answer:  Alcoholism: It's the tendency in which one consumes alcohol to cope with difficulties or to avoid the feeling sadness.  The ill effects of alcoholism are:  Increases risk of heart diseases, cancer, impaired immune system, liver infection.  Reduced work focus and drop in performance.  Degradation in social and economic status.  Induces withdrawal symptoms like anxiety, fatigue, headache, depression etc.	CDSL	7	0,	7

Tobacco Tobacco is the second largest cause of death in the world. Its effects are:  • It is a major reason for oral cancer which affects mouth, tongue, cheek, gums and lips.  • Chewing tobacco lessens a person's sense of taste and ability to smell.  • Smokers face a greater risk of suffering from lung cancer.  Ghutka Each sachet contains 4000 chemicals, including SO that cause cancer like betal nut, tobacco, and flavoring.  • Loss of sensation in tongue • Disfigured mouth • Inability to open the mouth • Swelling, lumps, rough spots on gums or in other places inside the mouth • Unexplained bleeding in mouth • Difficulty in swallowing and finally Mouth Cancer	Tobacco is the second largest cause of death in the world.
