Annexure A

India is looking at growing its **digital economy** from \$200 billion (2019) to as much as **\$ 1 trillion by 2025** according to the Ministry of Electronics and IT (MeitY), GOI. While there is tremendous opportunity for growth, there is also a need for upskilling the existing & potential workforce, with targeted programs spanning across host of emerging technologies. Talent has emerged as the new competitive advantage that companies and Nations have to stay ahead in this game as business will flow where talent is available in quantity and quality.

The Skills Gap is already quite huge. India's demand for Digital Talent jobs is 8 times larger than the size of its fresh talent pool, and by FY 2024, this demand will become 20 times larger. The new combination of human skills and automation, will make jobs roles more service oriented, entailing problem-solving, communication, collaboration and critical decision-making skills. Composite Skills is the Future.

Recognizing the need, Ministry of Electronics and IT (MeitY) and NASSCOM have joined hands to make India a global hub for skilled talent on emerging technologies. **Futureskills PRIME** is a platform built by the government together with the IT Industry for the people of India. It aims to reskill & upskill around 4 lakh professionals in next three years with an objective to create India's Digital Talent Stack that will propel India into a leadership position in the digital world.

Futureskills PRIME includes the following Emerging Technologies and Professional Skills

The platform uses technology to create a space where a learner can access content on all the skills of the future. A learner can seamlessly access free and paid content, assessments, virtual labs and get certified on industry defined skills of their choice. Through this platform one can:

- Build digital fluency on emerging technologies & professional skills through byte sized micro learning content.
- Earn badges on every skill acquired.
- Take up Industry recommended and validated courses in form of foundation, bridge and technical competency-based courses developed by the industry.
- Get certification and attain digital expertise on the identified skill.
